**WELCOME**

Welcome to 4th grade in Room 21. I am excited to start a new year and hope that you are, too. In 4th grade, I will be helping you learn to be a good thinker. I will expect you to work hard, ask questions when you don't understand, and always have the courage to do the right thing.

**ALL ABOUT ME**

This will be my 19th year teaching at North Park. Before that, I substituted at many different schools around Dutchess County, so I can say that North Park is a very special place. My husband is an engineer at Central Hudson and we have two grown sons. Andrew works at IBM and Connor is a Registered Dietitian in Boston. We also have a dog named Norton. I grew up in Michigan in the Upper Peninsula and have had several careers before teaching.

**MY FAVORITES**

- Hobbies: Reading, reading, reading, Knitting, walking, cooking, exploring nature
- Foods: Lobster, chocolate (especially with caramel), ice cream, homemade cookies, salad. Can you tell I have a sweet tooth?
- Books: Too many great books to choose just one. I look forward to sharing some with you during the year.
- Place: Anywhere I can be looking at water--lakes, especially.
